Course Duration: 3 days

About this course

This three-day MTA Training course helps you prepare for Microsoft Technology Associate Exam 98-364, and build an understanding of these topics: Core Database Concepts, Creating Database Objects, Manipulating Data, Data Storage, and Administering a Database. This course leverages the same content as found in the Microsoft Official Academic Course (MOAC) for this exam.

Audience profile

The Microsoft Technology Associate (MTA) is Microsoft's newest suite of technology certification exams that validate fundamental knowledge needed to begin building a career using Microsoft technologies. This program provides an appropriate entry point to a future career in technology and assumes some hands-on experience or training but does not assume on-the-job experience.

At course completion

After completing this course, students will be able to:

- Understand Core Database Concepts
- Create Database Objects
- Manipulate Data
- Understand Data Storage
- Administer a Database

Course Outline:

Module 1: Understanding Core Database Concepts

Module 2: Creating Database Objects

Module 3: Manipulating Data

Module 4: Understanding Data Storage

Module 5: Administering a Database
